

Technical Specifications:

Hardware Requirements

- Intel or AMD Dual or Quad Core Processor, 2.5GHz or better
- 80 GB minimum available hard disk space
- Data storage space sized according to facility's imaging volume

Software Requirements

Server Systems:

- Microsoft Windows 2008 Standard 64-bit or 7 Professional 32/64-bit
- Any browser with Java-Plugin Version 1.6 or later for EvoView Web in Browser or JRE Version 1.6 or later for EvoView Workstation Standalone. Currently, the following browsers conform to these requirements: Internet Explorer 7 or later, Firefox (until 2016 yearend), Safari, and Opera. For systems that support Java but do not allow Java as a browser plugin, EvoView Web will be run as a WebStart application outside of the browser (no local installation required). Systems that neither support Java nor Java WebStart will receive the HTML5 version, if licensed accordingly.
- Network connection

Client Workstations:

- Microsoft Windows 7 SP1 32/64-bit, Vista 32/64-bit, XP 32/64-bit
- Any browser with Java-Plugin Version 1.6 or later for EvoView Web in Browser or JRE Version 1.6 or later for EvoView Workstation Standalone. Currently, the following browsers conform to these requirements: Internet Explorer, Firefox (until 2016 yearend), Safari, and Opera. For systems that support Java but do not allow Java as a browser plugin, EvoView Web will be run as a WebStart application outside of the browser (no local installation required). Systems that neither support Java nor Java WebStart will receive the HTML5 version, if licensed accordingly.
- Network connection for access to the server
